

## Greeting Message from TOUDAISHA Co; Ltd.

In Japanese, "Lighthouse" is called  
"Toudai" which emits light to serve as  
a navigational aid for boats and vessels.  
We named our company "Toudaisha"  
because we can serve our customers  
like a lighthouse when they have  
a hard time in darkness.  
Please feel free to consult us  
if you need any support while  
living in Japan.  
We will do our utmost to  
meet your expectations.
